ALEC BARTZ

A recent graduate looking to

gain experience earn licensure make a difference

The goal of the project was to design a new elementary school in the Riverwest

ELEMENTARY

RIVERWEST

neighborhood of Milwaukee which interfaced with the topography of the site. The school uses a tiered approach, where classrooms rest upon and open up to the roof of classrooms on the level below. The overall L shape of the building maintains visual and physical connectivity to the river as well as the topography.
